HIGH SPOT BEER COMPANY

High Spot Beer is Bluewater Grill's proprietary draft beer that is brewed for us at a local, award winning San Diego small batch-brewery. We brew three types of beer, named after Southern California fishing spots. They include High Spot 289 Blonde, High Spot 14 Mile Pale Ale, and High Spot 182 IPA.

Curious what makes a pale ale pale? Or an India pale ale distinct? What is a lager or pilsner? You can think of these beers as a spectrum with more mild lagers on one end, then pale ales, IPA's and aggressively-hopped double IPAs on the other. Hops are a key factor — hops are the flowers of the hop plant. They are used primarily as a flavoring and stability agent in beer, to which they impart bitter, zesty, or citric flavors.

HIGH SPOT 289 BLONDE

5% ABV | 20 IBU | 5 SRM

Named after the “289 Fathom High Spot” east of San Clemente Island over 40 miles off-shore. A trek to get there but when the fishing is hot it makes the trip worth the effort. A fathom equals six feet so the depth is 1,734 feet!

CHARACTERISTICS

HOPPINESS	LOW 20 IBU
MALTINESS	LOW
FLAVORS	LIGHT CITRUS, LOW BITTERNESS
COLOUR	STRAW, PALE GOLD 5 SRM
ALCOHOL	5% ABV

ABV = ALCOHOL BY VOLUME (% ALCOHOL)

SRM = STANDARD REFERENCE METHOD OF BEER COLOR INTENSITY ON A SAMPLE FREE OF TURBIDITY
(THE HIGHER THE NUMBER THE DARKER THE BEER)

IBU = INTERNATIONAL BITTERNESS UNITS (MEASURES HOP BITTERNESS ON A SCALE FROM 0 TO 100)

BLONDE ALES

Blonde ale is a straw colored ale that has moderate bitterness and maltiness. The most popular beers in America – Coors Light and Bud Light are both types of lager. They’re inherently drinkable: not hoppy, bitter or malty like their pale ale or IPA counterparts. Despite their mainstream appeal, lagers are now being made by craft breweries, previously the domain of ales. The style is closely related to traditional lagers, and was originally intended as a way of transitioning consumers to craft beers. A pilsner is a lager with more hoppiness flavor and a flavorful “head.” Think Budweiser, Coors, Pilsner Urquell, Heineken, Beck’s or Corona. Remember that pilsners are lagers but not all lagers are pilsners!

PAIRS WELL WITH

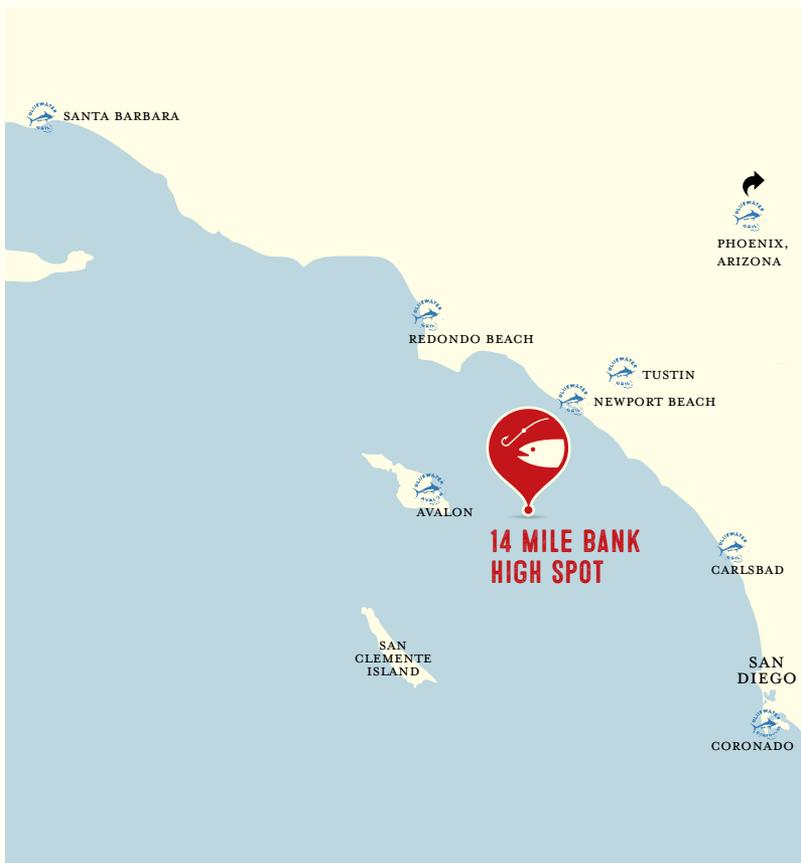

Today’s Fish, simply grilled • Salads • Ahi Tuna • King Crab

HIGH SPOT

14 MILE PALE ALE

4% ABV | 42 IBU | 10 SRM

Named after the "14 Mile Bank High Spot" halfway to Catalina, just 14 miles off Newport Harbor. The 14 mile rises to just 350 feet of the surface and creates current upwelling that brings bait and the associated predator fish like rock cod and marlin, tuna and dorado in the summer.

CHARACTERISTICS

HOPPINESS	LOW-MODERATE 42 IBU
MALTINESS	LOW-MODERATE
FLAVORS	MEDIUM MALT WITH MODERATE CITRUS & BITTERNESS
COLOUR	PALE AMBER 10 SRM
ALCOHOL	4% ABV

ABV = ALCOHOL BY VOLUME (% ALCOHOL)

SRM = STANDARD REFERENCE METHOD OF BEER COLOR INTENSITY ON A SAMPLE FREE OF TURBIDITY
(THE HIGHER THE NUMBER THE DARKER THE BEER)

IBU = INTERNATIONAL BITTERNESS UNITS (MEASURES HOP BITTERNESS ON A SCALE FROM 0 TO 100)

PALE ALES

So called because they are brewed with more lightly roasted “pale” malts, pale ales typically have a more equal malt-to-hop balance. The hops are present, but moderate.

PAIRS WELL WITH

*San Francisco Cioppino • New England and Manhattan Chowders
Moderately flavored seafood preparations*

HIGH SPOT 182 IPA

5.9% ABV | 58 IBU | 6 SRM

Named after the "182 Fathom High Spot" 26 miles west of Point Loma, off San Diego Harbor. Great for Marlin, swordfish and tuna when warm summer currents push north from Mexico. A fathom equals six feet so the depth is 1,092 feet!

CHARACTERISTICS

HOPPINESS	MODERATE 58 IBU
MALTINESS	MODERATE
FLAVORS	ZESTY WITH PRONOUNCED CITRUS AND BITTERNESS
COLOUR	DEEP GOLD 6 SRM
ALCOHOL	5.9% ABV

ABV = ALCOHOL BY VOLUME (% ALCOHOL)

SRM = STANDARD REFERENCE METHOD OF BEER COLOR INTENSITY ON A SAMPLE FREE OF TURBIDITY
(THE HIGHER THE NUMBER THE DARKER THE BEER)

IBU = INTERNATIONAL BITTERNESS UNITS (MEASURES HOP BITTERNESS ON A SCALE FROM 0 TO 100)

AMERICAN INDIA PALE ALES

While the English style of IPA is still brewed today, American brewers have also put their own spin on it. Our IPA is more aggressively hopped, with the balance of hops-and-malts definitely tipping in favor of the hops. "182" features resinous pine and bitter grapefruit flavors. More flavor than a pale ale and lager.

PAIRS WELL WITH

Blackened fish • Intensely flavored seafood preparations

“The High Spot beers are a testimony to Captain Sean Burke and the crew aboard Pilikia, our private swordfish harpoon boat that regularly fish the waters between Santa Barbara and San Diego. The fact that these beers are named after local spots that the Bluewater crew regularly fish for swordfish and other varieties make them even more personal.”

—Jimmy “Jim U” Ulcickas and Rick Staunton, Founders
